

QUALITY POLICY

P&A Welding Pty Ltd is a well-established, dynamic, forward thinking Australian family owned and operated business specialising in piping, mechanical construction, maintenance, and engineering services to the Construction, Oil and Gas, and Mining industries throughout Australia. The business has gained significant recognition for the quality of its service to customers.

P&A Welding Pty Ltd offers state of the art methods and technologies and makes sure that customers are properly and comprehensively consulted and that the most effective solution to meet their needs is professionally applied.

The primary objective of P&A Welding Pty Ltd is to provide efficient, cost-effective services which meet or exceed the diverse needs and expectations of their customers throughout Australia.

Executive management of P&A Welding Pty Ltd recognise that a complete commitment to quality throughout its operations is the key to meeting this objective and, with the employment of risk-based thinking and the process approach system, and the co-operation of all employees and associates, has established a comprehensive quality management system which is certified to ISO 9001 with Southpac Certifications.

P&A Welding Pty Ltd acknowledge the importance of continuing research, education and constant improvement to the quality management system, providing tools to aid in improvements and monitoring objectives, and committing the entire organisation to consistently meeting the requirements of:

ISO 9001:2015
